Example of MH Command-line Interface

(Using other UNIX utilities/ features with MH — 1 of 2)

```
% show 53
(Message inbox: 53)
```

...message 53 appears...

```
% show > DO_THIS_NOW
```

...saves message 53 to
a file named DO_THIS_NOW...

```
% show | pr -h "DO THIS NOW" | lpr
```

...formats message with header and footer,
sends to the printer...
