Example of MH Command-line Interface

(Using other UNIX utilities/features with MH — 2 of 2)

```
% pick -from joe -and -before monday
12        ...numbers of messages from Joe
16        sent before Monday...
32
```

```
% show `pick -subject "status report"`
(Message inbox: 41)
    ...messages with that subject appear...
```

```
% show `pick -to bigboss` | lpr
    ...prints messages to "bigboss"...
```
