Some of the Other MH Interfaces

(From the *mh-users* “Frequently-Asked Questions” list)

- **mh-e** – Interface using the GNU *Emacs* editor
- **mixmh** – Multimedia version of *xmh*
- **olmh** – Sun Open Windows interface
- **plum** – Interface using *vi*-style commands
- **vmh** – Another interface using *vi*-style commands
- **MMH** – Motif interface
- **Your own** – If you can write a program or a script for UNIX, you can write an MH interface.
