Making MH Command 'Versions'

1. Link copy of MH command into your *bin* directory:

   ```
   % ln -s /usr/local/mh/repl thanks
   ```

2. Add switches for your version to your MH profile file:

   ```
   thanks: -form thankscomps -editor cat \
       -whatnow push -nocc all
   ```

3. (for this example): make *thankscomps* header template file
